ARW-3805 WENGE

ARW-3401 MAHOGANY

ARW-3801 WALNUT

Color variation may occur between panels from different production batches. In order to maintain color consistency, do not mix different batches on same facade. Please order the total requirements for one particular building in a single order.
For metallic and effect colors, to avoid possible reflection differences, it is imperative to install the panels in the same direction as marked on the protective film.
